WINDOWS FUNDAMENTALS – 2

Aim: To provide an overview of some other utilities available within the Windows operating system and different methods to access these utilities.

Procedure:

- Introduction
- System Configuration
- Change UAC Settings
- Computer Management
- System Information
- Resource Monitor
- Command Prompt
- Registry Editor
- Conclusion

Answer the questions below

In System Configuration, what is the full command for Internet Protocol Configuration?

| C:\Windows\System32\cmd.exe /k %windir%\system32\ipconfig.exe | ✓ Correct Answer |

For the ipconfig command, how do you show detailed information?

| ipconfig /all | ✓ Correct Answer |

You can move the slider to see how the setting will change the UAC settings and Microsoft's stance on the setting.

User Account Control Settings

Choose when to be notified about changes to your computer

User Account Control helps prevent potentially harmful programs from making changes to your computer.
Tell me more about User Account Control settings

Always notify

Notify me only when apps try to make changes to my computer (default)

- Don't notify me when I make changes to Windows settings

ⓘ Recommended if you use familiar apps and visit familiar websites.

Never notify

OK   Cancel

Answer the questions below

What is the command to open User Account Control Settings? (The answer is the name of the .exe file, not the full path)

| UserAccountControlSettings.exe | ✓ Correct Answer |
